Product Composition

- A** USB Cable
- B** Power Button (Power & Pause / Play)
- C** Volume Button (Previous / Next)
- D** LED

Instructions

Turning on / off

- Power-on : Press and hold the power button (**B**) for more than 3 seconds. If the device is powered on, the LED light (**D**) will turn on with an audible notification.
- Power-off : Press and hold the power button (**B**) for more than 3 seconds while using the product. If the device is powered off, the LED light (**D**) will turn off with an audible notification.

How to register for Bluetooth

- Press and hold the power button (**B**) for more than 3 seconds.
- Turn on the "Enable Bluetooth" button on the device you want to connect. And press the "Search for Bluetooth device" button.
- Once you find a device "11+Sound2" on the device you want to connect, select and connect with it.
- Once the Bluetooth connection is established, an audible notification will sound.

Note

- The Bluetooth connection will be paused automatically when a phone call comes in.
- When the call ends, the connection will be resumed.
- When a device is already connected through Bluetooth, no other connection can be established.
- If you want to connect with other device, disconnect the Bluetooth connection with the device already connected to 11+ Sound 2 and turn off the power and turn on again.

Charging

- Connect the USB cable (**A**) with a charge adaptor or a computer.
- The battery life depends on the time of use and user environment.
- If you charge the device with the device's power off, the LED light flashes every 3 seconds and it turns off by itself after charging is completed.
- If you charge the device with the device's power on, the LED light flashes every 3 seconds during charging and it flashes every 7 seconds after charging.
- If the battery is low, the LED(**D**) light flashes rapidly.
- When the device is not in use for charging, disconnect the USB cable (**A**) from the device.

Safety Precautions

Please read the following safety instructions to ensure the safe operation.

- Please do not leave the device near heat sources such as the radiator, heater, or stove.
- Always use designated power sources only.
- If you detect unusual sound, smoke, odors, or damage, stop the use immediately and consult with your retailer or authorized dealer.
- Please do not expose the device to rain or extreme moisture.
- Do not throw the device into an open fire.
- Avoid dropping the product or applying excessive pressure.
- Do not leave the device where it will be exposed to high/low temperature or high levels of humidity.
- Do not open the device for disassembly/repair/modification. Failure to observe this precaution could result in fire or electric shock.
- Do not handle the device with wet hands. Failure to observe this precaution could result in electric shock.
- Keep this device out of reach of children.
- Do not insert any conductive object into the device.
- Do not use the magnet in the speaker for any purpose other than the purpose listed within this manual. (Use caution with objects vulnerable to magnetic properties such as credit card, bank passbook, and magnetic tape)
- Do not leave the device where it will be exposed to extremely high temperatures such as in an enclosed place or in direct sunlight. Store the device in an indoor place with good ventilation.
- Do not open the device for disassembly/repair/modification without authorized technician's approval.
- Any changes or modifications made to this device may void your warranty.
- If the device is contacted by chemical substances, remove any attached cables and wipe with a soft cloth. Never use chemicals like alcohol or benzene.
- If you experience problems with the device, contact our service center. If you receive repair services from a place other than our official service center, it will not be covered under warranty.
- Mounting strength of the magnet can be affected by the finishing of the metal surface.
